Other, Non-Hispanic .....	5
Hispanic .....	13
2+ Races, Non-Hispanic .....	1

#### Region

Northeast.....	19%
Midwest.....	22
South .....	37
West .....	23

## METHODOLOGY

The US poll was fielded by Knowledge Networks, a polling, social science, and market research firm in Menlo Park, California, with a stratified random sample of its large-scale nationwide research panel. This panel itself has been randomly recruited from the national population of households having telephones; households without internet access are subsequently provided with free web access and an internet appliance. Thus the panel is not limited to those who already have home internet access. The distribution of the sample in the Web-enabled panel closely tracks the distribution of United States Census counts for the US population on age, race, Hispanic ethnicity, geographical region, employment status, income, education, etc. Upon survey completion, the data were weighted by gender, age, education, and ethnicity. For more information about the methodology, please go to: [www.knowledgenetworks.com/ganp](http://www.knowledgenetworks.com/ganp).
